

# Chokwe news

## NOVEMBER 2015

---

Dear Family in Christ,

After the celebration of the 20th anniversary, we return to our normal routine, this time, with some changes.

With the increase of number of youth every Sunday, we have now moved to the Assemblies of God church which is bigger. We have about 300 young people every Sunday afternoon coming to the club.

Below are the pictures of the activities in the club.

### Word of Life Camp

Our youth camp this year with the Word of Life was wonderful again. The theme was "Jesus is enough in my life". Children had very good teachings from matured Mozambican young people from Maputo and the leaders. I also liked the good time they had with the Lord individually, and of course they had fun with games. We also selected youth from the villages to participate.

## Sewing project

A lady with the name of Selina who is a very good seam's dress asked me to choose some children that she can teach sewing, we have chosen the first group and it is running at the moment. This helps them to get some skills that they can use and also have something to avoid their hands to be idle.

## Movies time

During holidays, some people make plans to travel, stay home, sleeping, walk in the park, going to the beach, in Hlauleka some young people take advantage of sitting together, watching Christian movies, then discuss and pray together.

Below we were watching a movie "God is not dead"

### **Evangelistic club**

We have also held some club on the outskirts of Chokwe to evangelize to the youth in those areas, and this made a big number of them turning to join the clubs.

### **Training of more children's workers**

Training for children's workers was done, they were from different churches, selected ones from our clubs and also from the villages we work in. This was a great tool as the number of the youth helping in teaching the little one's clubs has increased, some even started new children's clubs in churches. Training was reinforced to the volunteers that were added in villages like Koka Misava and Mukhatini.

### **Prayer item**

- Thank God with us for the growing number of the youth.
- Thank God that this year we got our final papers for the school and pre-school.
- Please pray for the children who have just joined the clubs to stay and grow spiritually.
- Please pray that we manage to finish the building for the pre-school so that we can be able to get space for our grade 4 class next year.
- Pray for Angelica, the one who teaches children in Koka misava, she and her volunteers are training people in another village called Chegue.

May the Lord bless you,  
Sybil
